Proposal for a new course/Modification in a course

- I. Course Title: Network Flow Optimization
- II. Proposed Course Number: EM ( to be allocated by office)
- III. Units: [ 2 - 0 - 0 - 2]
- IV. Mode: core/Elective/EMF: Core: EMF
- V. Evaluation Scheme: 1 test, 1 mid semester , 1 end semester
- VI. Semester: II
- VII. Programme: MTech/PhD
- VIII. Learning Objective:

Basic objective of the course is to provide a brief introduction to network flow optimization problems, their applications and different algorithmic solutions. After reading this course, the student should be able to model a network flow problem and classify a given network flow problem and identify possible solution methods. The student will also be aware of the recent trends in network flow optimization.

IX. Detailed Course Content:

Module 1: Introduction and applications of network flow optimization problems, Maximum flow problem, Basic ideas, Generic augmenting path algorithm, Labeling algorithm and the Max-Flow Min-Cut Theorem.	6 H
Module 2: Flows with lower bounds ; Efficient Max flow algorithms, Polynomial time algorithms - Capacity scaling; <u>Shortest augmenting paths</u> , <u>Distance labels and layered networks</u> ; Generic preflow push algorithm, <u>FIFO push algorithm</u> .	6 H
Module 3: Minimum cost flows, Optimality conditions, Minimum cost flow duality, <u>Cycle cancelling algorithm</u> and integrality property, Successive shortest path algorithm, Primal-dual algorithm.	5 H
Module 4: Minimum cost flow polynomial time algorithms – Capacity and cost scaling, <u>Network simplex algorithm</u> ; Recent trends in network flow optimization	3 H

Respected Sir,

I am Patel Nikhil Maganbhai (Roll number: 1510323) M. Tech. student of Mechanical discipline. I have completed the course work criterion of our institute acquiring CPI 7.8. I am continuing my thesis work under the supervision of Dr. Pavan Kumar Kankar.

I have got the opportunity of working in a Government of India enterprise, Nuclear Power Corporation of India Ltd. on 26<sup>th</sup> July 2016. I will be under training for a period of a year (August 2016- July 2017) in the same. During the training period I will not be able to continue the curriculum of our institute. Therefore, I request you for the permission to leave the institute for mentioned period. Further I can assure you that, I will continue the remaining Thesis work credit as an external student in Next academic year (2017-2018). I request you to grant me permission for academic drop for the upcoming academic year and continue my thesis work in next academic year as an external student.

Thanking You.

12<sup>th</sup> September 2016 1763

Dear Dr Padhy,

This ~~is~~ reference to the meeting that you conducted today, wherein the above course for BDes students was discussed.

I would like to state that Prof VM Parmar who was supposed to take this course in this month was suddenly hospitalized because of hypoglycaemia and hence could not come. Thus the course could not be conducted. As a result the mid-semester examination for this course cannot be held as per the schedule and will be held in October once Prof Parmar conducts his series of classes.

Prof Parmar is now well and is going to conduct the above course from 17<sup>th</sup> October 2016 .

May I request your permission for deferring the mid-semester examination for the course(DS 212) in October 2016 because of this unavoidable circumstances?

Thanking you

Respected Sir,

Dr. Jawar Singh was taking the classes for MT502 (Concepts in Electronics). Dr. Jawar Singh has proceeded on the sabbatical leave from August 2016. Due to this, the classes could not run (only six classes are held so far). We are trying to run the course and it will start after the mid semester exam.

In view of this, it is proposed to postpone the mid semester exam of MT502 by one month.

Sir,

*[Signature]*  
03-10-2016

I am a PhD student of Mechanical Engineering Discipline in the Institute under the supervision of Prof. Puneet Tandon. I am associated with a BRNS funded project "Process Development for the fabrication of Free Form components through Incremental Sheet Metal Forming". Prof. Puneet Tandon is the PI of this project.

As part of my thesis work, I am developing material models for Finite Element Analysis (FEA) of Incremental Sheet Forming (ISF) Process. ISF is an evolving forming technology to form complicated geometries in limited batch sizes, without using any die. It is a Dieless fabrication technique.

I am working on porosity based damage models, phenomenological fracture models and on development of innovative hardening laws in order to develop a novel paradigm for simulation of ISF. In order to take my work to next level I am seeking expert advice from Dr. M.K. Samal, a senior scientist at Reactor Safety Division, Bhabha Atomic Research Center and Project collaborator of the aforesaid project.

Dr. M.K. Samal is a renowned expert in the field of materials and numerical techniques in India and abroad. He has several years of experience as a research scientist and has one of the most advanced labs in India equipped with avant-garde facilities. As a PC of the project he has consented to provide his guidance and advice to me. He has also invited me to join his research group for a period of one month to get acquainted with the state-of-the-art practices in the field of FEA and metal forming.

I would like to join Dr. Samal's for a period of one month. I would be working on the topic titled "Material modelling for FEA of ISF".

Therefore, I request you humbly to kindly accord the requisite administrative approval.

Sub: Proposal to convert core course on "System and Control" in Elective

Respected Sir,

"System and Control" is compulsory subject for the M.Tech. in Mechatronics programme. The course was designed based on the different disciplines being given admission in the programme. From last four years it has been observed that most of Mechatronics students have Electronics background and already studied almost 50% of the course content during their B.Tech.

A revised scheme for Mechatronics programme will be prepared and submitted for consideration of the Senate. In the meantime it is proposed that the course System and Control may be offered as an elective to students registering in II Semester of their programme in 2016-17.

Subject: Request for joining the duties at NIT Raipur

Respected Sir,

I Vikas Kumar Malviya am a PhD Research Scholar in CSE of this institute since January 2012. I had applied for a position of an Assistant Professor (on contract) in NIT Raipur (National Institute of Technology, Raipur) after obtaining NOC (No objection certificate) from institute and have been selected for the same. I will have to join there on July 18, 2016 as they have refused to extend the joining date.

I have already applied for the conversion of my PhD category from regular to external category. Please give permission for doing the same.

Thanking you,

Yours Sincerely,

Dean(A) P. Pillai 28/12/16

The documents are showing some discrepancy.

1. The Evaluation Board formulated/ recommended for external category conversion of Mr. Vikas Malviya on 5/8/16 has already given its report on 17/8/2016. (As per attached documents.)
2. Again there is a mistake in the <sup>approved</sup> Evaluation Board on Aug 5, 2016. Prof. A. Ojha is mentioned as supervisor, while actual supervisor is Dr. Atul Gupta.
3. When an <sup>approved</sup> committee has already submitted its report, then why a new committee (PK, SKM, PKT, AG) has been proposed again. Who proposed this <sup>new</sup> committee on what date is not mentioned.
4. It is marked to Dean(A) (see \* on the prev. page), then why it is send to me.

**Subject: An application for taking permission regarding continuing my academic program in semester-II 2016.**

Respected Sir,

I am Rachana Yogi (1520662) PhD student of Department of NS. I am truly responsible for my performance of semester-I 2016. Sir, I want to inform you that in the semester-I 2016, I was suffering from **severe survival problem**. Hence, I was unable to study properly. Due to this I secured 5.0 SPI in semester-I 2016 and as a result my PhD academic programme has been academically dropped. Sir, I request you to kindly consider my application for continuing in semester-II 2016. I assure you that I will perform better in this semester, (II 2016).

**Academic Performance**

Semester / Subjects	Subject I - Grade	Subject II - Grade	SPI	CPI
Semester-I 2016	Nano Technology - <b>A</b>	Electrodynamics - <b>C</b>	8.0	8.0
Semester-II 2016	C.M. Physics - <b>B</b>	Q. Mechanics - <b>F</b>	5.0	6.5

I secured 8.0 CPI in semester-II 2015 and I secured grades **B** and **F** respectively in two subjects of semester-I 2016. Based on my previous academic performance I request you to kindly allow me to take one subject as substitute of the subject in which I secured grade **F**. I assure you that I will perform my best.
