Subject – Permission for registering as an ‘External Ph.D Candidate’ in Semester-II, 2016-17

Respected sir/madam,

With due respect I (Umakant Mandawkar) state that I am a Ph.D. research scholar in the Discipline of Computer Science and Engineering, since January 2012. I have completed my comprehensive exam, four progress seminar and minimum residential requirement of two years. I have to bear the entire responsibility of my family as I am the elder son. Also, I am not getting Ph.D stipend from the institute. I had to join a teaching job for financial stability.

I request you to please allow me to register as an ‘External Ph.D Candidate’ in the upcoming semester. I shall be highly obliged to you.

Thanking you

Yours sincerely,

Umakant Mandawkar
Roll No. – 1220162 (Ph.D.)

Recommendation of the Guide -

Umakant was initially registered as a Ph.D. student with Dr. Anil Kumar. After some time his performance was not found upto the mark, He lost his father during that period due to which he was unable to concentrate on his studies. As a result his Ph.D. programme was terminated. He appealed against the decision and after some consideration, his Ph.D. programme was restored. However, he was not provided TAship. As informed by Umakant he requires monetary support to continue his Ph.D. programme and also for his livelihood.

It is therefore recommended to convert the Ph.D. programme of Umakant to external category to help him continue his programme while he earns for his family.

To

The Head (CSE) I believe this is a last chance for him and therefore I recommend to allow him to register in external category. This way he will be able to continue his programme as well as support his family. P. S. 15/2/17
